PROJECTS

Airline Reservation System

Tech Skills: HTML | CSS | JavaScript | Node.js | Express.js | MongoDB

Description: Built an online platform to automate flight reservations with features like flight availability, passenger details, seat allocation, and booking management. Optimized the system for reliable performance, user-friendly interaction, and seamless reservation processing.

GPA-CGPA Calculator

Tech Skills: HTML | CSS | JavaScript | Node.js | Express.js

Description: Designed and developed a responsive GPA and CGPA Calculator for students. Implemented dynamic calculations with real-time result generation based on user input. Focused on accuracy, simplicity and accessibility across multiple devices.
